

# AKUSTICO

## ACOUSTIC TEXTILE

### DIGITAL PRINTING TEXTILES

#### DESCRIPTION

A flexible, yet especially hard-wearing, acoustic textile for sound-optimised interior decoration. Ideal for producing curtains, ceiling sails and for covering design features with a sound-absorbing function. The special weaving process ensures a uniform looking surface from any angle.

#### APPLICATIONS

Sound absorption, upholstery and work station partitions.

|                        |   |
|------------------------|---|
| Roll Widths            | 155cm & 310cm   |
| Roll Length            | 50 metres   |
| Nominal Weight         | 270gsm  |
| Fabric Type            | Woven polyester   |
| Fire Retardant         |     |
| Printing Compatibility |    |
