# PRICKLZ®

## CLIMBING PREVENTION SPIKES

Ideal for shade structures, any flat surface, brick fences, wall tops or any fence with a broad top rail, mortar & timber walls and thermo-forming.

**Pricklz®** by Ricky is a rigid PVC with spikes designed to minimise harm while providing maximum deterrence.

When including **Pricklz®** in your shade structure project you can help discourage people climbing and therefore reduce vandalism.

As well as being fully recyclable this easy to install product will last for years under all Australian weather conditions.

Available in a neutral grey, **Pricklz®** will easily blend in to your structure posts but can be painted if required.
