

# POLYRUG T/S™

## WAX CONVERTERS TEXTILES

### CANVAS FABRIC

#### APPLICATIONS

The Hydostatic Head and Cone Test would indicate that the fabric is perfectly waterproof. However, being a 100% polyester fabric, we suggest that this fabric is only to be used as a shower proof summer sheet for horse rugs. The base fabric is woven with either blue or white (self colour) checks.

|                                     |   |
|-------------------------------------|---|
| Roll Width                          | 202cm   |
