BOCHINI - A PVC COATED MATERIAL WITH WOVEN POLYESTER SCRIM

It's in the details! Meet Bochini, an industry leading type 0 tensile structure fabric.

Bochini is crafted using a 1000D low wick polyester and finished with a weldable PVDF lacquer; single sided for Bochini and double sided for Bochini Blockout. Ideal for lightweight tensioned structures, retractable roofing systems, marquees, and tents, Bochini has the added benefit of UV stabilisation, waterproof and anti-mildew properties, and FR B1 certified. This high-performance range is available in 11 colour ways, four of which are inspired by COLORBOND®.
