# THE PINNACLE OF PVC EXCELLENCE

Our most popular PVC fabric is meticulously crafted to meet the demands of small to medium-scale applications. Renowned for its strength, durability, and easy maintenance, this fabric stands as our most sought-after solution for projects requiring superior performance.

Versatile and reliable: From marquees and covers to banners and sporting equipment, AK420 offers unmatched versatility to adapt to diverse project needs. With its UV stabilised and fire retardant properties, it ensures lasting vibrancy and safety in any environment. Finished with a sleek matte texture, AK420 delivers a sophisticated aesthetic that enhances the appeal of any project.

## UV STABILISED

AK420 fabrics are UV stabilised which prevents them from fading under intense UV rays. This increases the textiles' longevity and ensures easy cleaning.

## FIRE RETARDANT

AK420 fabric are fire retardant which means they are designed for commercial environments. Test results available from Ricky Richards by request.
