AQUASAFE

PVC-COATED POLYESTER

TANK LINERS

WATER BLADDERS

WATER CONTAINMENT, PERFECTED

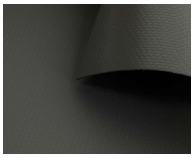

Aquasafe is a high-performance PVC-coated polyester fabric specifically developed for the safe containment of potable water. Engineered for strength and durability, it offers exceptional handling and reliability in applications where water safety is critical.

Ideal for use in tank liners, water bladders, and other drinking water contact solutions, Aquasafe combines a robust 750gsm construction with a matte finish and UV stabilization for long-lasting performance. Supplied in rolls 205cm wide and 200m long, it ensures efficiency and flexibility for large-scale projects.

UV STABILISED
Aquasafe is UV stabilised, preventing the fabric from fading under intense UV rays, and increasing longevity.

WATER-POTABLE
Aquasafe is fully compliant for potable water contact, providing premium-quality water containment.

TECHNICAL SPECIFICATIONS

Roll Width	205cm
Roll Length	200m
Nominal Weight	750gsm
Thickness	0.65mm
Base Fabric	Woven 1100dtex polyester
Fabric Type	PVC-coated polyester
Finish	Matte
Fabric Density	9 x 9 threads per cm^2
Tensile Strength (AS2001.2.3.1-2001)	Warp: 3098N/50mm Weft: 2509N/50mm
Elongation at Break (AS2001.2.3.1-2001)	Warp: 16.9% Weft: 29.0%
Water Potability (AS4020:2005)	Passed
Puncture Resistance (ASTM D4833-07)	1164N
