# B6000

## 900GSM PVC-COATED POLYESTER

For heavy-duty transport applications, truck side curtains, roll-over tarpaulins

The logo for Ricky, featuring a stylized 'R' composed of three colored squares (yellow, orange, and purple) followed by the word 'ricky' in a lowercase, sans-serif font.

**B6000**

# THE ULTIMATE HEAVY-DUTY TRANSPORT SOLUTION

Crafted with precision and durability in mind, B6000 from world-leading supplier Sioen is a dimensionally stable PVC fabric that ensures reliability and performance even in the most demanding conditions.

Designed to withstand the rigors of heavy-duty transport applications, this versatile fabric is the go-to choice for truck side curtains, roll-over tarps, and tarpaulins. With its robust construction and superior quality, Sio-Line B6000 offers unparalleled strength and longevity, providing peace of mind to businesses and drivers alike. B6000 delivers exceptional performance, ensuring that your goods remain protected and secure at all times.

## UV STABILISED

B6000 fabrics are UV stabilised which prevents them from fading under intense UV rays. This increases the textiles' longevity and ensures easy cleaning.

## PROTECTIVE LACQUER

B6000 is finished with a protective lacquer to maintain appearance and product performance.

## STRONG & DURABLE

B6000 is engineered to be robust and durable, capable of withstanding the demands of heavy-duty transport applications.

## MOULD & MILDEW RESISTANT

This PVC fabric is highly resistant to mould and mildew, ensuring longevity and reliability even in challenging environments.

## MADE BY SIOEN

Manufactured in Europe by the world market leader in technical textiles.

# NG600 & NG680

## 600GSM & 680GSM PVC-COATED POLYESTER

For covers, banners, sporting equipment, marquees, tents, bags, tarpaulins, box trailer covers, grain bins & truck side curtains

# NG600 & NG680

# BUILT TOUGH FOR CHALLENGING CONDITIONS

NG600 & NG680 have your back when it comes to applications that must face the harsh elements.

These PVC fabrics are not only resistant to ripping, but also to bacteria. These fabrics won't fade because they are UV stabilised, and also fire retardant, ensuring that they're built with quality and durability. Amidst all these great features, NG600 & NG680 are also printable and come with a 2-year warranty – now that's a PVC you can rely on.

 UV

## UV STABILISED

NG600 & NG680 fabrics are UV stabilised which prevents them from fading under intense UV rays. This also increases the textiles' longevity and ensures easy cleaning.

 FIRE

## FIRE RETARDANT

NG600 & NG680 are both fire retardant, so the fabrics are designed for commercial environments. Test results available by request.

 BACTERIA

## ANTI-BACTERIAL TREATMENT

NG600 & NG680 feature an anti-bacterial treatment, ensuring longevity and reliability even in challenging environments.

 PRINT

## PRINTABLE

NG600 & NG680 are printable and is compatible with screen and digital printing methods.

## 900GSM PVC-COATED POLYESTER

For heavy-duty transport applications, truck side curtains, roll-over tarpaulins

# MAXSIDE 900

# THE EPITOME OF RELIABILITY AND DURABILITY IN THE REALM OF HEAVY DUTY FABRICS

Crafted to excel in demanding environments, this heavy weight PVC coated polyester boasts an acrylic lacquer finish on both sides, ensuring unmatched strength and longevity.

Tailored for truck side curtains, roll-over tarpaulins, and heavy duty tarpaulins, Maxiside 900 offers unparalleled versatility to meet a wide range of application needs. Its UV stabilised and anti-fungal properties guarantee exceptional performance and longevity even in the harshest conditions.

**Built to Last:** With Maxiside 900, durability is not just a feature – it's a guarantee. The acrylic lacquer finish on both sides enhances its resistance to wear and tear, while the UV stabilisation ensures lasting colour vibrancy. Whether you're tackling truck side curtains or heavy duty tarpaulins, Maxiside 900 delivers reliability you can trust. Choose Maxiside 900 for your heavy-duty projects and experience the difference superior quality makes.

## UV STABILISED

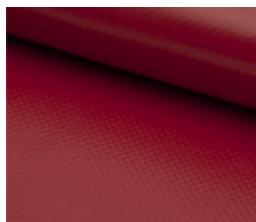

Maxiside 900 fabrics are UV stabilised, preventing them from fading under intense UV rays.

## ANTI-FUNGAL

Maxiside 900 fabrics are finished with an anti-fungal treatment that kills parasitic fungi or their spores. This treatment provides ease of maintenance and improves the textiles' longevity.
