Marine

We offer a versatile range of solution-dyed acrylic, polyester, and PVC marine fabrics for boat covers, biminis, spray dodgers, and more. Our marine textiles are carefully selected to ensure longevity on the water.

NEPTUNE

Solution-dyed acrylic for boat covers, biminis, spray dodgers, and umbrellas

- Full 10-year UV warranty
- Solution-dyed acrylic
- UV stabilised
- Water resistant
- Mould & mildew resistant

JETTY

100% solution-dyed polyester for boat covers, biminis, spray dodgers, and umbrellas

- Full 5-year UV warranty
- Waterproof
- UV stabilised
- Printable
- Mould & mildew resistant

bluwater

PVC for boat covers, biminis, and spray dodgers

- Full 10-year UV warranty
- UV stabilised
- Waterproof
- Low-wick treatment
- Protective lacquer
- Mould & mildew resistant

oceanview

Extruded clear PVC for clear enclosures, spray dodgers, and boat window panels

- Full 2-year UV warranty
- UV protection
- Exceptional clarity
- Made in Japan
- Easy fabrication

SKYLINE® 94

Mesh for windscreens and cushions

- Full 10-year UV warranty
- UV stabilised
- Fire retardant
- Mould & mildew resistant
- Durable & easy to maintain

BLISS

Stylish solution-dyed acrylic for marine upholstery

- Full 5-year UV warranty
- UV stabilised
- Solution-dyed acrylic
- Water & stain resistant
- Rotproof & mildew resistant

MAXISCREEN

Woven PVC coated polyester for mesh enclosures

- UV stabilised

Docril®
solution dyed acrylic

BINDING

Solution-dyed acrylic binding for windscreen covers and cushions

- Fire retardant
- Mould & mildew resistant

PFAB (PF105CL)

Transparent woven polyethylene fabric ideal for patterning, as well as gel coat surfaces and painted surfaces

NEPTUNE

SOLUTION-DYED ACRYLIC

For boat covers, biminis, spray dodgers & umbrellas

 Ricky

 NEPTUNE

FOR MARINE APPLICATIONS THAT REQUIRE TEXTILES TO PERFORM UNDER PRESSURE

Ensure smooth sailing with Neptune, our European designed and crafted solution-dyed acrylic.

With exceptional durability, UV stability, mould and mildew resistance, Neptune is easy to maintain and will exceed expectations. This collection features a modern marine colour palette in two qualities: Neptune is finished with a premium water repellency treatment, while Neptune Extra has the added benefit of a high-performing waterproof acrylic backing.

10-YEAR UV WARRANTY

Neptune is a high-performing fabric that is supported with a 10-year warranty. Comprehensive care details are available from Ricky Richards by request.

SOLUTION-DYED ACRYLIC

Neptune is manufactured with solution-dyed acrylic yarn. This technology provides exceptional colour stability and performance under harsh Australian elements. Using the solution dyeing method, the colour becomes an integral part of the yarn through to the core which means Neptune fabrics are some of the most colourfast in the textile industry.

UV STABILISED

Neptune fabrics are UV stabilised which prevents them from fading under intense UV rays. It also increases the textiles' longevity and ensures easy cleaning.

WATER RESISTANT / WATERPROOF

Neptune is finished with a premium water repellent treatment, which also provides easy cleaning while Neptune Extra has the added benefit of a high performing waterproof coated backing.

MOULD & MILDEW RESISTANT

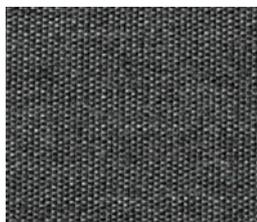

Neptune textiles have been finished with a treatment that provides ease of maintenance by inhibiting mould and mildew growth. It also improves the textiles' longevity and makes for easy cleaning.

COLOUR RANGE

This collection contains core colourways in two finishes: Neptune is finished with a premium water repellent treatment, while Neptune Extra has the added benefit of a high-performing, waterproof acrylic backing.

For boat covers, biminis, spray dodgers & umbrellas

Ricky

JETTY

ENGINEERED FOR VERSATILITY

Jetty is engineered with 100% solution dyed polyester. The lightweight construction is ideal for fitted covers that need to be removed and stowed on a regular basis.

Jetty is available in two finishes. Jetty features an impervious waterproof backing and is ideal for countless applications including marine covers, outdoor umbrellas and general-purpose applications. Jetty Plus includes a soft, non-woven backing to avoid rub marks when the cover is subject to wind-flap and movement.

5

5-YEAR UV WARRANTY

Jetty fabrics are supported by a 5-year UV warranty. Comprehensive care details are available from Ricky Richards by request.

UV

UV STABILISED

Jetty fabrics are UV stabilised which prevents them from fading under intense UV rays. This increases the textiles' longevity and ensures easy cleaning.

HIGH ABRASION RESISTANCE

Jetty fabrics have a high abrasion resistance, meaning the fabric can withstand the wearing down or rubbing away by means of friction.

EXCELLENT STRENGTH TO WEIGHT RATIO

The strength to weight ratio of a given textile is the strength of the textile divided by the mass.

WATERPROOF

Jetty fabrics are coated with a waterproof finish.

MOULD & MILDEW RESISTANCE

Jetty fabrics have been finished with a treatment that provides ease of maintenance by inhibiting mould and mildew growth. It also improves the textiles' longevity and makes for easy cleaning.

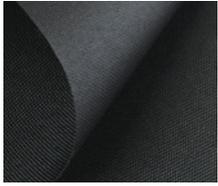

PRINTABLE

Sturdy enough to flow through a printer, Jetty is a printable fabric which can be beneficial for commercial applications. (Not including Jetty Plus).

JETTY COLOUR RANGE

Jetty is engineered with 100% solution-dyed polyester. The lightweight construction is ideal for fitted covers that need to be removed and stowed on a regular basis. Standard Jetty features an impervious waterproof backing.

MARINE PVC

For boat covers, biminis & spray dodgers

 ricky

 bluwater

LASTING CONFIDENCE ON THE WATER

Bluwater and Bluwater Lite are engineered for durability and versatility in marine environments. Both fabrics are perfect for boat covers, biminis, and spray dodgers, offering reliable protection against harsh conditions.

Bluwater features a 10-year UV warranty with superior UV stabilisation, ensuring long-lasting colour retention and strength. It's waterproof, treated to resist moisture absorption, and finished with a protective lacquer that guards against dirt and contaminants. Bluwater Lite has a 5-year UV warranty, and features the same features, whilst offering a lightweight option in five colour options. Stay protected and confident on the water with Bluwater.

10-YEAR UV WARRANTY

Bluwater is supported with a 10-year warranty and Bluwater Lite is supported with a 5-year warranty. Both are provided in partnership with the manufacturer and provide peace of mind.

UV STABILISED

Bluwater fabrics are UV stabilised which prevents them from fading under intense UV rays. This increases the textiles' longevity and ensures easy cleaning.

WATERPROOF

Bluwater and Bluwater Lite both provide a waterproof finish for any marine canopy, cover, or other outdoor application.

MOULD & MILDEW RESISTANT

Bluwater fabrics include an additive to inhibit mould and mildew, providing maintenance benefits.

LOW-WICK TREATMENT

Bluwater contains a low-wick treatment to prevent unsightly mould developing in the fabric's woven base cloth.

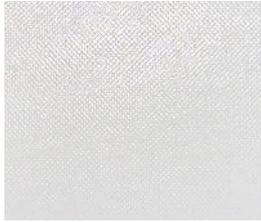

PROTECTIVE LACQUER

Bluwater and Bluwater Lite are finished with a protective lacquer on both surfaces to maintain appearance and product performance.

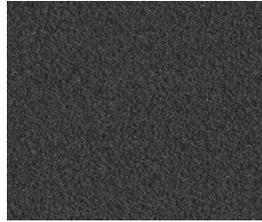

COLOUR RANGE

The Bluwater collection contains colourways in two fabrics: Bluwater boasts a weight of 650gsm and high tear strength, while Bluwater Lite is the lighter option at 360gsm.

EXTRUDED CLEAR PVC

For clear enclosures, spray dodgers & boat window panels

CRYSTAL CLEAR PROTECTION FOR EVERY JOURNEY

Whether you're fabricating a clear enclosure, require clear vision for a spray dodger, or clears for a runabout, Oceanview delivers where it matters most: clarity, performance, and longevity.

Oceanview is a high-performing clear marine PVC. When your marine project demands a clear view and the highest performance, choose Oceanview.

2-YEAR UV WARRANTY

Supported by a 2-year warranty, Oceanview gives peace of mind to both fabricators and boat owners. With its premium quality, this is a clear PVC you can rely on to deliver clarity and durability, season after season.

UV PROTECTION – 2000 HOURS

With a 2000-hour UV formulation, Oceanview is built to endure. This added protection ensures the clear PVC maintains its clarity, flexibility and strength for longer, reducing yellowing and brittleness often found in lesser-quality clears. The result? A longer-lasting premium finish that continues to perform.

EXCEPTIONAL CLARITY

When visibility is a priority, Oceanview shines. Its crystal-clear finish offers exceptional optical clarity, allowing for unobstructed views while protecting from wind, spray, and weather.

MANUFACTURED IN JAPAN

Precision-engineered and manufactured in Japan, Oceanview offers consistent quality and craftsmanship. Every roll meets rigorous quality control standards, making it a trusted solution for professional marine trimmers who demand the best for their customers.

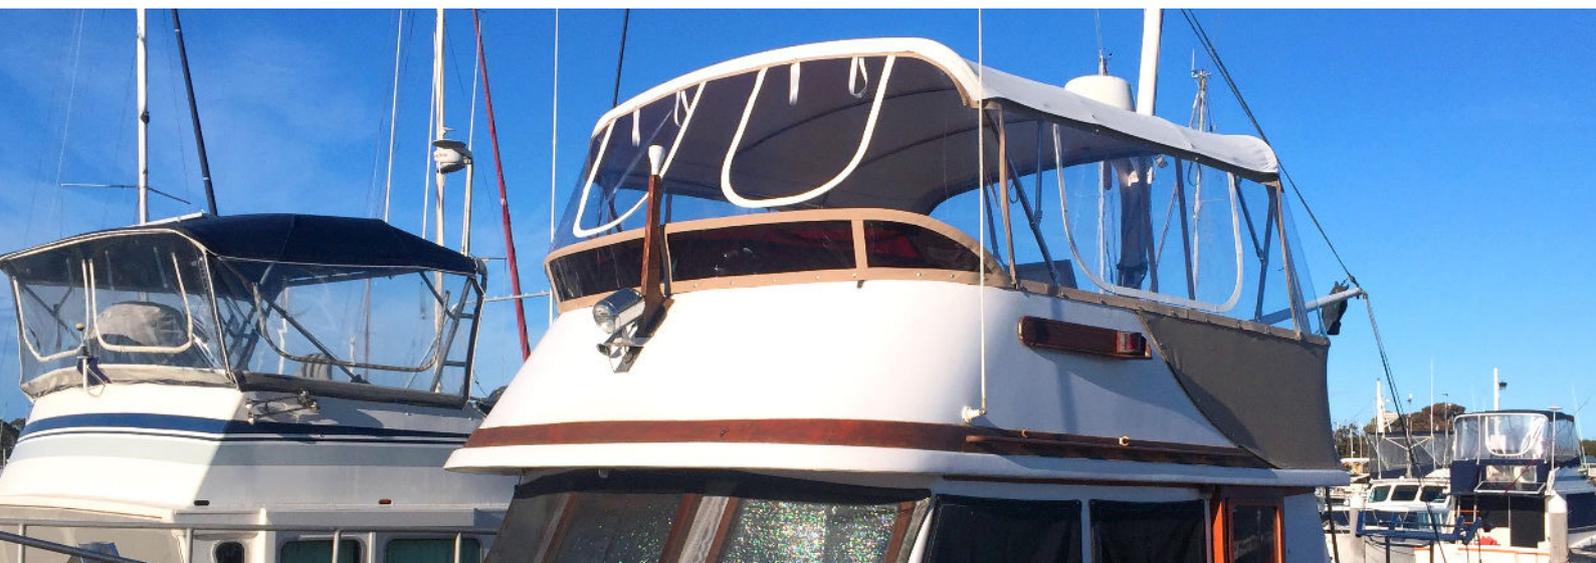

EASY FABRICATION

Oceanview features excellent lay-flat characteristics, meaning it's easy to handle, cut, and weld—a major benefit during fabrication and installation. It ensures a sleek, smooth appearance on every project, whether you're working on tight curves or large spans.

SKYLINE 94

MESH

For windscreen covers & cushions

Ricky

SKYLINE

PERFORMANCE, PROTECTION, STYLE

Available in a range of modern and popular colours, Skyline® 94 offers excellent performance and protection without compromising on style.

PHIFER

Skyline is manufactured by the American based global leader of solar control fabrics, Phifer Incorporated. Manufactured using stringent quality control systems and the latest technology, Skyline is the benchmark for outdoor mesh in Australia. Innovation is in the Phifer DNA with industry leading initiatives such as Dow Ecolibrium and Microban.

10

10-YEAR UV WARRANTY

Skyline is a proven performer and is supported with a 10-year UV warranty.

FIRE RETARDANT

Skyline fabrics are designed for residential and commercial environments and are tested to the relevant Australian standards.

GREENGUARD GOLD® CERTIFIED

Skyline is engineered with environmental responsibility as one of its key criteria. The lead and phthalate-free formulation provides low emissions and is Gold Level certified by Greenguard.

MOULD & MILDEW RESISTANT

Skyline has been finished with a treatment that provides ease of maintenance by inhibiting mould and mildew growth. This also improves the textiles' longevity and makes for easy cleaning.

DURABLE & EASY TO MAINTAIN

Skyline is as durable as it is stylish and is designed to handle high traffic applications with ease. Skyline mesh is easy to maintain and only requires occasional cleaning using a mild detergent then rinsing with clean water.

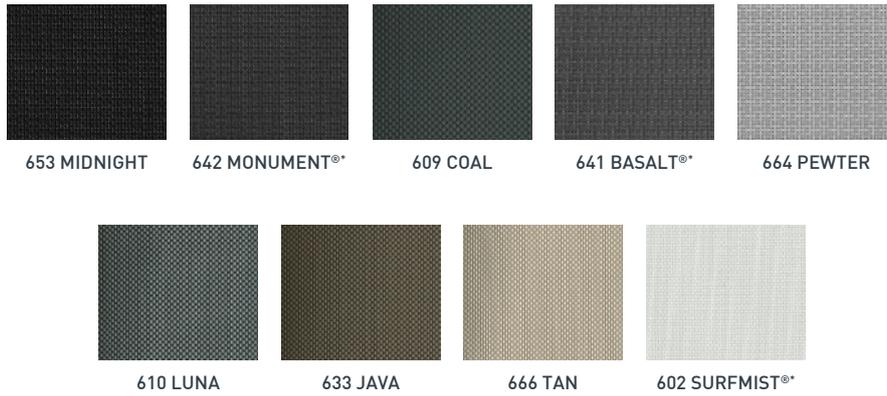

Colorbond

INSPIRED BY COLORBOND®

A selection of colours throughout the Outlook collection are inspired by Colorbond®, matching any existing outdoor theme.

P-FAB: TRANSPARENT WOVEN POLYETHYLENE FABRIC IDEAL FOR CREATING PATTERNS

Ideal for patterning, as well as gel coat surfaces, painted surfaces, and other fragile components in the workspace.

Ricky patterning fabric lies flat and has the perfect stretch to create patterns for Neptune, Jetty, and Bluwater covers. The fabric will adhere well to masking and double-sided tapes, can be sewn together for larger patterns, and will clamp to frames easily with pony clamps. P-Fab is clear/transparent.
