BUILT TOUGH FOR CHALLENGING CONDITIONS

NG600 has your back when it comes to applications that must face the harsh elements.

These PVC fabrics are not only resistant to ripping, but also to bacteria. These fabrics won't fade because they are UV stabilised, and also fire retardant, ensuring that they're built with quality and durability. Amidst all these great features, NG600 is also printable and come with a 2-year warranty – now that's a PVC you can rely on.

2-YEAR UV WARRANTY

NG600 is supported by a 2-year UV warranty.

UV STABILISED

NG600 is UV stabilised which prevents them from fading under intense UV rays. This also increases the textiles' longevity and ensures easy cleaning.

FIRE RETARDANT

NG600 is fire retardant, so the fabrics are designed for commercial environments. Test results available by request.

ANTI-BACTERIAL TREATMENT

NG600 features an anti-bacterial treatment, ensuring longevity and reliability even in challenging environments.

PRINTABLE

NG600 is printable and is compatible with screen and digital printing methods.
