ANYTHING ELSE IS A COMPROMISE

For decades Outlook has been Australia's market leading outdoor mesh and with good reason. The Outlook Collection is the most comprehensive available with a combination of modern and contemporary colours in a variety of textures and qualities. Through constant development and innovation, the Outlook Collection delivers performance and functionality like no other.

Outlook is manufactured by the American based global leader of solar control fabrics, Phifer Incorporated. Manufactured using stringent quality control systems and the latest technology, Outlook is the benchmark for outdoor mesh in Australia. Innovation is in the Phifer DNA with industry leading initiatives such as Dow Ecolibrium and Microban.

- Blind and awning systems using Outlook mesh will extend outdoor areas for all year-round living, maintaining temperature control and providing a seamless connection for indoor and outdoor environments.
- Outlook filters ultra-violet rays, offering protection without compromising the visual aspect.
- Manufactured using the bio-based Dow Ecolibrium plasticiser technology, using Outlook will save on average one litre of a petroleum for each outdoor blind.
- Outlook fabrics are designed for commercial environments and are tested to the relevant Australian standards.
- Outlook mesh naturally creates a cooler environment outside, and assists with lowering energy costs inside.

THE OUTLOOK ADVANTAGE

15

15-YEAR UV WARRANTY

Outlook is a proven performer and is supported with an industry-leading 15-year UV warranty.

GREENGUARD GOLD® CERTIFIED

Outlook is engineered with environmental responsibility as one of its key criteria. The lead and phthalate-free formulation provides low emissions and is Gold Level certified by Greenguard.

MICROBAN® TECHNOLOGY

Outlook fabrics include Microban anti-microbial technology. This provides ease of maintenance by inhibiting mould and mildew growth.

DOW® ECOLIBRIUM™ BIO-BASED PLASTICISER TECHNOLOGY

Outlook features the exclusive bio-based Dow Ecolibrium plasticiser technology which reduces greenhouse gases by 40%. Dow Ecolibrium preserves the equivalent of 1 litre of oil for every 10 square metres of fabric compared to petroleum-based equivalents.

FIRE RETARDANT

Outlook fabrics are designed for commercial environments and are tested to the relevant Australian standards. (Not including Outlook Designs)

DURABLE & EASY TO MAINTAIN

The Outlook collection is as durable as it is stylish and is designed to handle high traffic applications with ease. Outlook mesh is easy to maintain and only requires occasional cleaning using a mild detergent then rinsing with clean water. Comprehensive care details are available on the Ricky Richards website or by request from Ricky Richards (Sales) P/L.

INSPIRED BY COLORBOND®

Selection of colours throughout the Outlook collection are inspired by Colorbond® matching any existing outdoor theme.

LEAD-FREE

Outlook fabrics manufactured by Phifer Incorporated are lead-free. These fabrics pass some of the most stringent US standards for heavy metals such as US Product Safety Commission Section 101 and ANSI/WCMA A100.1-2007 for lead content.

PRINTABLE

Mode Colours, Outlook Privacy and Outlook Zero colours are printable fabrics and have the printing compatibility for Solvent and UV printers.

ONLY OUTLOOK USES

Plasticisers give fabrics their pliability, or unique ability to bend and flex without cracking, breaking or holding memory. Fabrics made with Dow Ecolibrium bio-based plasticisers offer a renewable, plant-based alternative to those made with traditional petroleum-based plasticisers, lowering greenhouse gases by 40%. This technology also improves performance, offering the benefits of heat stability, durability, abrasion resistance and UV resistance.

Made from **98%** renewable materials

Phthalate and lead free

Produces lower carbon footprint

Durable and cleanable

Lowers greenhouse gases by **40%**

WHEN YOU USE OUTLOOK MESH, EACH STANDARD BLIND SAVES...

Up to **2kg** of CO₂ and **1L** of petrol*

*Calculated based on a standard blind being 10m²

THE AVERAGE HOME USING OUTLOOK SAVES...

Up to **12kg** of CO₂ and **6L** of petrol*

*Calculated based on a house with 6 x 10m² sized blinds
